THE TOUR

The tour will start at the source of the river Usk high in the beautiful hills of Wales where you will meet your guide. This is an action packed full day, where you will be able to explore the magnificent journey of the river Usk. You are able to stop off at the visitors' centre for a snack and have a browse around the shop.

This is when you'll get the chance to go Quad Biking! Our adventure on the Quads, will follow the course of the river as it makes its way towards the estuary.

As we get to the flood-plain, you will have the chance to take an amazing helicopter ride.

This will travel downstream following the loops and curves of the river's meanders.

There will be river-dipping for the less adventurous.

This will happen on the flood plain of the river Usk.

There are also boat rides that go down the river.

WONDERFUL USK VALLEY

Come and visit the beautiful countryside of the Usk Valley.

The wide variety of wildlife is amazing, from the high Brecon Beacons to the grassy flood plains, hundreds of different species make their homes in unique habitats.

We look forward to your visit to appreciate this wonderful environment that provides homes to hundreds of rare birds and insects.

The Usk Valley is a beautiful place to visit in Autumn.

The colours of the broadleaf trees are amazing.
