

Maths Explore

Log on to the computer.

Open the Internet Explorer.

Type into the Address Bar (At the top)

www.football365.com

When the page loads, click on the word **STATISTICS** on the left side of the page.

Scroll down to **ENGLAND**.

Click on **Stats Index**.

Scroll down to the **Goal Scoring** section.

Underneath this there is a list of categories, click on:

Goals For ALL

Choose 8 teams (not all from the Premiership) and copy their names and how many goals they have scored this season.

Draw a table like this in your book.

Team	Goals Scored

When you have done this, close the Internet and open **Office 2000** and then **Excel**.

Enter the data into the spreadsheet and then highlight it and press the **Chart Wizard** button on the toolbar.

Make a Column chart.

Remember to label the axis, and before you save and print you could colour the lines with the team's colours.

When you have printed it out, write six facts about your graph in your book.

(Think about who scored the most, least, etc.)
